2025 Asia-Singapore Conference on Sport Science "LIVE"

Venue

HOLIDAY INN SINGAPORE ATRIUM

Conference Dates

24-25 July 2025

Supported by

Southern Cross University

Organised by

EAST ASIA RESEARCH

Asia-Singapore Conference on **Sport Science**

BY DR. MIKE CLIMSTEIN & DR. STEPHEN BURNS

Asia-Singapore Conference on Sport Science (ACSS 2025), themed "A Multidisciplinary Approach to Enhance Sport Performance", the two-day Conference will offer participants the opportunity to learn about the latest trends and best practices in the world of Sport Science. Leading academic scientists, researchers and research scholars will attend to exchange and share their experiences and research results on all aspects of Sport Science. We encourage research papers and training approaches based on integrating different disciplines applied in Sport Science to enhance sport performance to be submitted to the conference. Expect presentations on the most recent innovations, trends, and concerns, as well as practical challenges encountered and solutions adopted in the fields of Sport Science.

We welcome all papers on the topic of Sport Science to be presented at ACSS 2025.

What can you expect at ACSS 2025?

- Ample interaction opportunities for ACSS delegates
- Top Singapore hospitality for all attending delegates
- An intellectually stimulating scientific program featuring more than 70+ presentations by leading researchers, teachers, and practitioners
- An opportunity for East-West science and practice collaborations at ACSS

IMPORTANT DATES

Abstract Submission Deadline:
9th April 2025

Author Notification Date:
23rd April 2025

Final Paper Deadline:
23rd May 2025

Early Bird Registration Deadline:
28th May 2025

Final Registration Deadline:
25th June 2025

Conference Date:
24-25th July 2025

VENUE

HOLIDAY INN SINGAPORE ATRIUM

317 Outram Road, Singapore 169075

5 Star conference venue overlooking the Singapore River

Holiday Inn® Singapore Atrium is a 4-star hotel strategically located in the heart of the city, steps away from the iconic Singapore River. A mere 25-minute ride from Changi Airport, its central location places you minutes from the Central Business District, Marina Bay and Orchard Road. It is seamlessly connected by car, bus and train (MRT - Singapore's subway) to popular attractions such as Sentosa, Universal Studios, Gardens by the Bay, Clarke Quay and Chinatown. With Havelock MRT station located right outside the hotel (exit 5), it provides direct access to Outram (1 stop), Orchard (2 stops), Maxwell (2 stops), Shenton Way (3 stops), Gardens by the Bay (6 stops), Woodlands etc. A few minutes walk is all it takes to Tiong Bahru, a neighbourhood that integrates both heritage and urbanization into one precinct.

KEYNOTE SPEAKERS

Conference Co-Chair

Assoc. Prof. Dr. Mike Climstein (FASMF, FACSM, FAAESS)

- Course Coordinator – Master of Clinical Exercise Physiology , Faculty of Health – Southern Cross University (Gold Coast, Qld, Australia)
- Director – Aquatic Based Research – Southern Cross University (Gold Coast, Qld, Australia)
- Physical Activity, Lifestyle, Ageing and Wellbeing Faculty Research Group, University of Sydney (NSW, Australia)

Dr Mike Climstein is an academic specializing in clinical exercise physiology and exercise/sport science. He is an Associate Professor at Southern Cross University. Mike has published 154 peer-reviewed scientific publications, 14 book chapters, 6 peer-reviewed conference papers, 110 conference presentations/abstracts and attained over $7.8 million in research funding. His academic and clinical accomplishments have been peer recognized having has been awarded fellowship by the American College of Sports Medicine (FACSM), Sports Medicine Australia (FASMF) and Exercise and Sports Science Australia (FAAESS). Additionally, he is an Academic Editor for the Journal PeerJ, Editorial Board Member for Sports MDPI and reviewer for numerous sports science and medical journals. His current research involves surfing, skin cancer in surfers/swimmers/stand up paddle boarders, world master games/veteran athletes, physiological monitoring of athletes and patients with smart textiles and assessing punching and kicking power in black belt martial artists. Mike was recently recognized for academic excellence in teaching and research by Southern Cross University.

Conference Co-Chair

Assoc. Prof. Dr. Stephen Burns

Physical Education & Sports Science, National Institute of Education, Nanyang Technological University

Dr Stephen Burns is an Associate Professor within the Physical Education and Sports Science Academic Group, National Institute of Education at Nanyang Technological University (NTU). He holds a PhD in Exercise Physiology from Loughborough University in the U.K. and has previously held posts at the University of Texas at El Paso and the Children's Hospital of Pittsburgh in the U.S. before coming to NTU. He is a member of the American College of Sports Medicine. He serves as an Associate Editor for the Journal of Exercise Science & Fitness; as a member of the Editorial Board for the International Journal of Obesity and the International Journal of Sport Nutrition and Exercise Metabolism; and as a Review Editor for Frontiers in Nutrition, and for Frontiers in Sports and Active Living. Dr Burns' research interests examine how physical activity can mitigate risk factors for cardiometabolic diseases and more recently he has conducted research into areas of sport nutrition, including the role of dietary supplements – caffeine and nitrate – in improving sports performance and the detrimental effects of low energy availability on performing sport. Internationally, Dr Burns collaborates with colleagues from the UK, US, Japan, Taiwan and New Zealand.

Keynote Speaker

Assoc. Prof. Dr. Kong Pui Wah

Associate Dean, Continuing Education & Training, Office of Graduate Studies and Professional Learning

Associate Professor, National Institute of Education – Physical Education & Sports Science

Dr Kong Pui Wah (Veni) is the Associate Dean for Continuing Education and Training at NIE's Office of Graduate Studies and Professional Learning. She is also an Associate Professor at the Physical Education and Sports Science Department. She obtained her BEd (first class honour) in Physical Education and Sports Science from the Chinese University of Hong Kong. She went on to study at Loughborough University in the United Kingdom for her MSc in Sports Science (Distinction) and PhD in Sports Biomechanics. Prior to joining NTU, she was an Assistant Professor at the University of Texas at El Paso and a visiting faculty member at the Emergency Responder Human Performance Laboratory at the University of Pittsburgh School of Medicine. Dr Kong teaches graduate, undergraduate and teacher-training courses related to biomechanics, anatomy and gymnastics. She received several teaching and mentoring awards, including MOE's Outstanding Mentor Award, NTU's Koh Boon Hwee Scholars Award, and NIE's Excellence in Teaching Commendation Award. Her research interests include sports and clinical biomechanics, with applications in human performance and musculoskeletal health. In 2020, she was the recipient of the Fellow of International Society of Biomechanics in Sports (FISBS). She is currently an Associate Editor for Sports Biomechanics and Journal of Mechanics in Medicine and Biology. She also serves on the editorial board for Research in Sports Medicine, Journal of Exercise Science and Fitness, and World Scientific Annual Review of Biomechanics.

Keynote Speaker

Dr. Stuart Evans

Lecturer in Teacher Education, Physical Education, Sport & Movement and Course Coordinator for the Master of Education, La Trobe University, Melbourne, Australia

Dr Stuart Evans (PhD, First Class Hons) has worked as a sport and exercise scientist, a teacher, a teacher educator, and in physical education teaching and sport development since 2016. Stuart is a current Lecturer in Teacher Education, Physical Education, Sport & Movement and Course Coordinator for the Master of Education at La Trobe University, Melbourne, Australia. Stuart is a multi-disciplinary researcher with an applied exercise and sport science, teaching, teacher education and health and physical education (HPE) pedagogy background. Stuart also lectures in biomechanics and motor control and remains an active researcher of how wearable technology can be used for biomechanical performance analysis and performance interventions. In addition, Stuart's research includes the fields of wearable technology in HPE, action-based pedagogy in HPE, curriculum, and learning outcomes in initial teacher education and recently graduated HPE teachers. Stuart is also the education director for STEMfit, an NGO that creates exciting and engaging, enquiry-based STEM educational experiences through the lens of physical activity, health, wellbeing and sport. He is also an established publisher and peer reviewer for Sports Biomechanics (ISBS), Frontiers in Sports and Active Living, Strategies, BMC Biomedical Engineering, Symmetry (MDPI), Teachers and Teaching, Children (MDPI), Education Sciences (MDPI), Sensors (MDPI), Applied Science (MDPI), Biomechanics (MDPI), International Journal of Environmental Research and Public Health (MDPI), Research Directs in strength and Performance, Journal of Science and Cycling, and Journal of Sports Engineering and Technology (Proc IMechE Part P). He is an editorial board member for the US-based journal Research Directs in Strength and Performance and has served as a guest editor for MDPI's Biomechanics and has been recognized as an Exceptional Reviewer for MDPI's Children journal.

NEW in 2025!

FREE Display Table
for PhD Candidate Recruiters

We invite potential employers to set up a complimentary display table at our conference to recruit talented PhD candidates in attendance. Take advantage of this opportunity to showcase your job vacancies and connect with promising professionals. Each display table measures 6ft by 3ft.

There is no charge for recruitment—simply cover the cost of food and drinks at the conference. Don't miss out—reserve your spot today! Thank you!

VR Meetup for in-person and virtual presenters

We're excited to announce some changes to our conference format! Based on feedback from our past delegates, we've decided to create a virtual meetup for both our in-person and virtual presenters.

A dedicated 2-hour session will be set aside in the virtual space for everyone to connect, network, and collaborate. So, get your Metaverse 3s and Apple Vision Pro ready—we can't wait to see you there!
